### Types of Outreach Events

Year	Presentation	Night Observing	Day Observing	Youth Group	School Talks	Exhibition	Observ./ Planet'm
2012	12	24	2	12	17	8	0
2013	24	24	3	12	32	7	0
2014	23	21	20	17	12	8	3
2015	22	33	23	7	15	13	1
2016	31	55	39	19	54	11	10
2017	48	77	20	17	45	5	1

There were 9 events reported for the partial eclipse, with about 1750 participants and 25 volunteers (with at least 100 volunteer hours). The four star parties brought in an estimated 1330 participants for presentations, solar and night observing. We will likely exceed last year's number of events by the end of October.

The number of participants includes 1834 who tuned in during six of Chris Curwin's Facebook live-feeds at the telescope. Thousands of others viewed the posted recordings of these events but they will not be included in the total.
